Received

General No 33393 16 DEC 1922

No

Enclosure No 6

Sir,

I have the honour to forward, herewith for sanction, two alternative estimates for -- laying Cast Iron Distributary main in the Vani Vilas Mohalla Extension, Mysore, one providing for the execution of the work with new materials amounting to Rs 19,395/- and the other -- amounting to Rs 8,587/- providing for the removal of 6", 4" and 2½" pipes and using, as -- per suggestions of the Chairman, City Improvement Trust Board, ~~the same~~.

2. There is no objection to the use of 6", 4" and 2½" pipes which have been laid, being removed and relayed for the new extension and I therefore recommend the smaller estimate for sanction

3. The work must be carried out by the Water Supply Department so long as the water works are in their charge.

4 The question of the waiving of the charges to the extent of 13% is for the Government to decide. They have waived the charges on the material portion of the estimate for

water supply to Narasimharaja Mohalla as a special case, but charges already paid for works carried out cannot be refunded; copy of Chairman's letter ~~Nov~~ is herewith submitted for information.

4. The Municipal Council have agreed to find funds for the work.

I have the honour to be,

S i r,

Your most obedient servant,

Chief Engineer for Irrigation.

HRR/9th.

15) Ref Dewan's minute dated 18-2-1923

The Chief Engineer for Irrigation reported on 4-2-23 that the Chairman ~~Col Burgess~~ Trust Board had stated that he would fund funds out of Collections to be realized from the Sale of Sites. On this, the Dewan remarked that the Chairman should provide funds for and that there was no clear information on the point. The Chairman now writes that the Expenditure may be met out of the provision of Rs 30,000 made in the Current Year's budget for Capital and Town Sites Schemes

A draft Sanad assuming the tahsildar is put up in this, it is stated that the levy of tahsildari and taxes and plant charges will be restricted to the "work portion" of the estimate

27/2/23

Water supply to Vani Vilasa Mohalla — Just on my return here, this morning, a deputation of the site-owners of Vani Vilasa Mohalla waited upon me and represented their great inconvenience and trouble to them for want of water and in reply, I told them that orders may soon be expected

I beg to enclose herein copy of my letter No.A dated 25th January 1923 to the Chief Engineer for Irrigation in the matter, for your perusal People who have already built houses in the Extension , have been bitterly complaining of the worry, trouble and loss caused to them for want of water supply Some persons who have purchased sites have been pleading that it is not possible for them to build houses, as there is no water supply, and in fact about half a dozen of them have already resigned their sites, even foregoing 25% of the amount paid by them, rather than wait and suffer further loss, and others have been withholding payment ' If this state of things continues longer, I am much afraid that the Extension will not become popular and may prove a failure which I am most anxious to avoid

Mr Bhore who had been here inspecting and examining the conditions said, that by using the old pipes available elsewhere in the City as suggested by me in my letter No.1139 dated 25th May 1922 to the

Chief Engineer and which he has approved and recommended, the actual cost of giving water supply to Vani Vilasa Mohalla at this stage, would only be about Rs. 8,000, which liquid money I can easily meet out of the sum of Rs 30,000 provided for in the current year's Budget against "Laying out Vani Vilasa Mohalla" (under II self-supporting or productive works) which has already been duly sanctioned by Government The whole of this amount will be met out of the realizations which we have been making from sale of sites &c , and no extra sum whatsoever will be required from Government. We sold the sites here at high prices, expressly on condition of providing water supply and all other facilities, and the Budget provision was specifically for the pressing and foremost of such facilities —water supply

Under these circumstances, I earnestly request the favour of your kindly having the matter looked into early and the formal sanction conveyed, so that inconveniences of the people may be obviated, and the Extension rendered a successful one

Yours sincerely

H. H. Maharaja

Copy of letter No.A dated 25th January 1923, from the Chairman, City Improvement Trust Board, Mysore, to the Chief Engineer for Irrigation, Public Works Department, Bangalore

---

With reference to your letter No 3805 dated the 27th December 1922, regarding water supply to Vani Vilasa Mohalla, Mysore, I have the honour to state that the work is of a very urgent nature, and the Trust Board will find funds out of collections to be realised from sale of sites, which has already been sanctioned by Government in the Board's current year's Budget

I have therefore to request that you may be so good as to arrange to start the work by using the old pipes etc , as represented in my letter No.1139 dated the 25th May 1922, and order the bills to be sent to me for payment.

1

PROCEEDINGS OF THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE

R e a d -

Letter No. B 3393 dated the 14th -- December 1922 from the Chief Engineer -- for Irrigation in Mysore, forwarding for sanction, two alternative estimates for laying cast iron distributory main in -- the Vani Vilas Mohalla Extension, Mysore -one providing for the execution of the work with new materials amounting to - - Rs 19,395/- and the other for Rs 8587/ providing for the removal of 6", 4" and 2½" pipes and using the same as per -- suggestions of the Chairman of the City Improvement Trust Board-and recommending that, as there is no objection to - the use of 6", 4" and 2½" pipes, which have been laid, being ~~removed~~ and re- - laid in the new Extension the smaller - estimate may be sanctioned and stating that the work has to be executed by the Water Supply Department, the question - of waiving of the Tools and Plant & - - charges to the extent of 18 per cent -- being left for the orders of Government

2 Letter dated the 26th February - - 1923 from the Chairman, Mysore City Improvement Trust Board, stating that a -- deputation of the site owners of the -- Vani Vilas Mohalla Extension waited - - upon him and represented their great -- inconvenience and trouble ~~to them~~ for -

for want of water supply and requesting that under the circumstances stated, -- sanction may be accorded to the smaller estimate recommended by the Chief Engineer and that the actual cost of giving water supply to Vani Vilas Mohalla Extension could only be Rs 8,000/- which can be met out of the sum of Rs 30,000/- provided for "laying out Vani Vilas Mohalla" in the current year's budget of the Mysore City Trust Board
